SUMMARY

Senior UX Designer and Consultant with 6 years of experience designing enterprise banking and financial services platforms, specialising in complex workflow-driven applications, data-intensive interfaces, and AI-assisted product experiences. Proven track record of leading end-to-end UX design from research, journey mapping, and heuristic evaluation through prototyping, usability testing, and delivery within Agile, cross-functional teams. Experienced in executive communication design, having partnered with Leadership & Client teams to craft RFP responses, client proposals, and stakeholder presentations that translate complex business narratives into compelling visual stories.

SKILLS

Data and Analytics: Power BI, Microsoft Power Apps, KPI Dashboard Design, Data Storytelling, Behavioural Trend Visualization

UX and Research: Employee Journey Mapping, Friction Analysis, Usability Testing, Heuristic Evaluation, User Interviews, Competitive Analysis, Information Architecture.

Design Tools: Figma, Adobe XD, Adobe Creative Suite, Microsoft PowerPoint, Wireframing, Prototyping, Design Systems, Component Libraries

Communication & Strategy: Executive Presentation Design, RFP & Proposal Design, Client Storytelling, Stakeholder Alignment

Standards and Methods: WCAG 2.1 AA, Agile Collaboration, IBM Enterprise Design Thinking.

EXPERIENCE

Senior UX Designer & Consultant (Banking & Financial Services)

Accenture, Pune

April 2022 - Present

- Led end-to-end UX design for enterprise banking platforms serving **100+ users**, applying **design thinking** and **journey mapping** to translate complex operational processes into intuitive, task-efficient interfaces, reducing average task completion time by **~30%**.
- Built and maintained a **scalable design system** of **40+** reusable components in **Figma**, cutting design-to-development handoff time by **25%** and improving cross-release consistency across product team.
- Conducted **heuristic evaluations**, moderated **usability tests**, and turned usability findings into a ranked action list that the product team actioned within the next sprint, resulting in a reduced revisions from **11 to 4 per sprint**.
- Designed **Power BI operational dashboards** for enterprise banking platforms serving 1,000 users, surfacing usage trends and service friction to measurably reduce critical workflow decision errors.
- Collaborated with managers and engineers to integrate automation-driven workflows into existing product surfaces, simplifying complex interactions for non-technical enterprise users.
- Designed and art-directed executive communication decks - **RFP responses, client proposals, and weekly status reports** for senior leadership and client audiences, applying visual hierarchy and information design principles to translate complex content into compelling, brand-consistent narratives in **PowerPoint**.
- Implemented accessibility-first design practices aligned with **WCAG 2.1 AA standards**, embedding inclusive design checkpoints into the team's Agile sprint review process.

Senior System Engineer (Banking & Financial Services)

Infosys, Chennai

September 2019 - March 2022

- Contributed **UI design** and **front-end** specifications using **HTML/CSS** to a client-facing banking operations release monitoring dashboard, collaborating with UX leads to translate **wireframes** into responsive, **brand-consistent interfaces**.
- Partnered with product and engineering teams in an Agile environment to identify usability gaps, feeding structured feedback into **iterative design cycles** that reduced reported UI issues by **~15%**.
- Created and maintained a library of **UI layouts and visual assets**, ensuring design consistency across a multi-module application used by 500+ enterprise users.

EDUCATION

Bachelor of Engineering (BE) Computer Engineering | Sinhgad Institute of Technology, Lonavala | June 2019

- Cumulative GPA: 8.25/10 | First Class with Distinction
